

BORDER OAK PORCHES

The Border Oak porch was first created for Ben and Merry Albright to complement the original Pearmain Cottage which featured on Grand Designs in 2003. It was based upon the lych gate of the church where Ben and Merry married and was designed by Merry's father and Border Oak's founder John Greene.

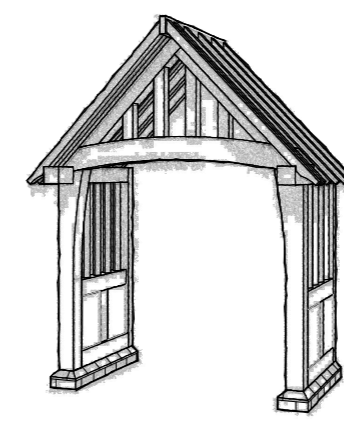

The classic porch features a gently curved tiebeam, bull nosed wall plates, tapered posts and mullioned side rails - and each one is made by hand in traditional carpentry workshops using the finest, sustainable green oak. The morticed and tenon joints are held together with seasoned oak pegs. Due to the exceptional craftsmanship and high quality of design and materials the Border Oak porch can work alongside a myriad of both new and existing homes and in a diverse range of settings. It has been designed to work as a 'self assembly kit' complete with instructions.

Simple variations can transform the Border Oak porch - slate roof tiles or herringbone brick panels for example - which may suit your vernacular or your host building.

The Border Oak 'self assembly kit' also includes oak pegs, the correct sized drill bit, and nails etc. Please note that any bricks, batten, tiles and side infill panels are not included, nor is delivery.

Please contact us for a delivery quotation. You are of course welcome to collect from us.

Some porches are kept in stock for immediate dispatch, however we anticipate most porch orders can be fulfilled within 12 weeks. Timescales can be confirmed upon order.
